PROFESSIONAL SUMMARY

IT professional with 8 years of supervisory experience, 25 years of windows server administration experience & 6 years of software development\automation experience. Leadership: Supervised 6 employees at TRW and was a Team Lead for 50 plus windows Administrators at IBM on the Disney Account. Planned, designed, built and maintained Windows platform servers in an enterprise environment. 6 years working with automation tools which resulted in minimizing labor hours & reducing human errors on windows related tasks.

WORK EXPERIENCE

IBM - work from home

October 2006 - PRESENT

Windows System Administrator \ Team Lead \ Software Automation Engineer

- Software Automation Engineer - automated windows SA tasks on over 100 IBM supported accounts with IPsoft & Red Hat Ansible tools. Some tasks consisted of cleaning disk space, archiving event logs, performing CIS related tasks, etc. These activities generated an immediate savings in SA labor hours and it also dramatically helped to reduce human errors.
- Team Lead - lead team of approximately 50 windows system administrators on the Disney account. Responsibilities range from directing, scheduling & assigning project work, training new hires, creating \ publishing team room documents, backing up the first line manager, and supervising, coaching & counseling staff as required
- System Administrator - performed a wide range of activities for over 3000 windows servers on the Walt Disney account (i.e. tool deployments, patching, HBA upgrades, server builds, etc...)

Walt Disney - Burbank, CA

October 1998 - September 2006

Senior Systems Administrator - BVHE Division

- Responsibilities consisted of configuring, installing, and administrating over 60 windows servers.
- Oversaw the operation and maintenance of applicable servers & provided technical assistance in identifying, evaluating & implementing new systems.
- Monitored & maintained hardware, operating systems, & software for 60 plus servers. Interacted with various vendors in order to resolve outstanding issues.
- Provided offsite & onsite support for over 50 remote field sales users located throughout the United States and Canada. Support tasks included laptops, DSL \ CABLE modems, routers,

firewalls, blackberry phones, printers and network switches. Planned, coordinated & scheduled various maintenance & upgrade activities as needed.

- Provided 1st, 2nd & 3rd level support to Disney's site-level personnel & maintained, supported, & tracked laptop loaner equipment.

TRW Systems Federal Credit Union - Redondo Beach, CA

August 1993 - October 1998

Computer Room Supervisor

- Supervised, scheduled, trained, & motivated 6 employees. Performed daily processing requirements as established by the Data Processing Mgr.
- Worked with offsite programmers \ engineers to resolve software & hardware problems and also Coordinated the repair & maintenance of office supplies and equipment.
